1. Our priority

Which everyday situation are we working on first?

2. Our setup

Where and with whom will we practice? What equipment or preparation did the trainer specify?

3. Our sequence

What do I do, what response am I looking for, and what happens next?

4. Our starting amount

What practice length and frequency did the trainer recommend?

5. If it goes differently

What adjustment, pause, or stopping point did we agree on?

6. Our follow-up

What should I report, when should I check in, and how do I reach the team?
